Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Lake County Sheriff Administration and Emergency Operations Center for Fiscal Year 2025.

The entity to receive funding for this project is Lake County, located at 255 N. Forbes Street Lakeport, CA 95453

The funding would be used for the repurposing of the armory into the sheriff's administration and operations center will bring together various divisions of the sheriff's office, including administration, patrol, detective, evidence, and training divisions. Additionally, it will facilitate coordination with other public health and safety partners as the center will be located on the same campus as the office of emergency services. central dispatch and the hill road correctional facility.

The project has a federal nexus because the funding provided is for the purposes authorized in Section 306 of the Consolidated Farm and rural Development Act, 7 U.S. Code section 1926(a).

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson
Member of Congress

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for construction of an expanded production facility for the Meals on Wheels program in Yolo County, California.

Per both the 2020 Census and a recent food security survey executed by Yolo Food Bank, 20% of Yolo County seniors are living in poverty and food insecure. This totals ~8,100 aging adults, and even more likely are impacted by the nation's "Epidemic of Loneliness," as documented by the U.S. Surgeon General's study last year. Despite more than 150% service growth over the past 2.5 years, Meals on Wheels Yolo County (MOW Yolo) still is serving less than 1/8th of the need at this time. While recent advances in the organization's current physical capacity for meal production have been meaningful, it is projected that the current ~1,800 meals per day capacity of both current kitchens will be insufficient to meet the growing demand within two years. A "silver tsunami" lies ahead, as the youngest Baby Boomers reach age 60 this year, the oldest mark their 85th birthdays -- often a time of significant physical and mental decline -- and the local Agency on Aging projects more seniors than children will reside in Yolo County by 2030. By prioritizing a second active kitchen area within MOW Yolo's existing Winters meal production facility in 2025, Yolo County can both catch up with current senior nutrition needs and prepare to meet the challenges of the future, ensuring that aging adults will "Eat Well, Age Well" with more fresh and local foods, availability of medically-tailored meal options, expanded "Cafe Yolo" Social Dining locations, and comprehensive rural meals access.

The project has a Federal nexus because the funding provided is for the purpose authorized by 42 USC 5305(a)(1). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson
Member of Congress

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Rio Vista Fire Department's Emergency Operations Center.

The entity to receive funding for this project is the Rio Vista Fire Department, located at 350 Main Street, Rio Vista CA, 94571. The funding would be used to improve emergency management and preparedness capabilities by providing flexible, sustainable, secure, and a strategically located, and fully interoperable EOC. It will provide a fully capable facility to support command, control, and coordination of multi-agency responses to major disasters or emergencies. This is an appropriate use of taxpayer funds as it will place the city's EOC outside of the flood plain due to its proximity to the Sacramento River.

The project has a Federal nexus because the funding provided is for the purposes authorized by section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196c), as amended by section 202 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Solano Irrigation District Vaca Valley Public Water System Consolidation – Phase I project for Fiscal Year 2025.

The entity to receive funding for this project is the Solano Irrigation District at 810 Vaca Valley Parkway, Suite 201, Vacaville CA, 95688

The funding would be used to consolidate the Gibson Canyon Improvement District and Pleasant Hills Ranch Estates Public Water Systems to facilitate connection of existing homes that rely on water supply that doesn't meet California's drinking water standards, increase reliability and harden of infrastructure to improve firefighting capabilities in a rural, fire prone area of SID, and provide a redundant water source. It involves installing 15,600 feet of 12-inch water pipe, a 250,000 gallon water tank, and emergency back-up to the City of Vacaville's PWS. Water bills in this area average over $400/month and additional costs from these much-needed projects will create affordability issues for these rural communities without financial assistance.

The project has a federal nexus because the funding provided is for the purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that neither I nor my immediate family has any financial interest in this project.

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Amtrak Depot/Olive Drive Connection Project in fiscal year 2025. The entity to receive funding for this project is the City of Davis, located at 23 Russell Blvd, Davis, CA, 95616. The funding would be used for construction of a pedestrian and bicycle connection from Olive Drive to the Davis Amtrak Station. The project is an appropriate use of taxpayer funds because it will remove access barriers for pedestrians and bicyclists by providing a direct path of travel between the Olive Drive neighborhood, the Amtrak Station, and downtown Davis, which improves residents' access to healthcare, food, education, and other essential services.

The project has a Federal nexus because the funding provided is for purposes authorized by 23 USC 133(b).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for construction of an economic development and community center by the Habematolel Pomo of Upper Lake Tribe, providing comprehensive educational and workforce training opportunities, meeting and workspaces, conferences and other events, and partnership programs with other Tribes in the region. The

The Habematolel Pomo of Upper Lake descend from the Pomo tribes whose homelands historically spanned a wide geographic area in northcentral California—essentially the area from the Pacific coast to the Clear Lake region. The Today, the Habematolel Pomo of Upper Lake government is based in Upper Lake, close to where they were in the early 19th century. The massacre of its people by the U.S. Calvary in 1850 and the subsequent taking of their lands and attempted termination by Congress and the State in the 1900s has already resulted in significant loss of the Tribe's resources – natural and cultural. Through economic development and empowerment, the Tribe is now able to empower its citizens through programs like job incentive and self-sufficiency training, homebuyer and homeowner rehab assistance, and educational programs.

With a funding request of $3.3 million the Tribe will create a comprehensive ecosystem for community building, educational development, and entrepreneurial growth in Upper Lake, CA through the construction of a community center.

This project will build-out a community center dedicated to education and professional and community enrichment. This center is designed to be a nexus for community learning and building, offering collaborative workspaces and conference spaces that not only inspire but also actively engage local and regional community members, Tribal members, and professionals to pursue economic-development-related opportunities such as trainings, meeting spaces, and

conference events. A focal point of this endeavor is to uplift and provide unparalleled opportunities for a historically economically disadvantaged region.

The project has a Federal nexus because the funding provided is for the purpose authorized by 42 USC 5305(a)(1). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Harmony Village Affordable Housing Project. The entity to receive the funding for this project is the City of Vacaville, located at 650 Merchant Street, Vacaville, CA 95688, Attn: Housing and Community Services.

The Harmony Village Affordable Housing Project will be built in partnership with the Solano-Napa Habitat for Humanity (SNHFH), a California non-profit organization, that is driven by the belief that access to decent, affordable housing is not a privilege but a fundamental right. To that end, The City of Vacaville, with SNHFH, will utilize community volunteer labor, donations, and grants to build quality, ownership housing for hard-working and diligent low-income families in our community that would not otherwise have access to home ownership. The Harmony Village Affordable Housing Project is a 10-parcel residential subdivision on approximately 1.07 acres for the construction of ten 1,554sqft Single Family Semi-Detached Duet Homes. The homes will be built by and sold to households earning less than 80% of the Area Median Income (AMI). Lot sizes range from 2,700sqft to 3,680sqft. This project is surrounded by infrastructure and city resources, retail facilities, and transit stops. This project is a good use of public funds because it directly addresses the shortage of available affordable housing in Vacaville and Solano County. It also addresses a lack of diversity of smaller homeownership units identified during the development of the City of Vacaville 2023-2031 Housing Element, implementing Goal HE.3, Variety of Housing Types and Goal HE.5, Affordable Housing Construction.

The project has a Federal nexus because the funding provided is for the purpose authorized by 42 USC 5305(a)(13). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Napa River Ecology Center Project. The entity to receive funding for this project is the City of American Canyon, located at 4381 Broadway, Suite 201, American Canyon, CA, 94503.

By repurposing a blighted former industrial site, the Napa River Ecology Center Project will create a new regional destination with educational, environmental, and economic benefits not found elsewhere in the region. Key components include: an education center and gathering spaces, community walking paths, wildlife viewing deck, and an outdoor classroom. By removing blight and improving the site, the project generates new educational, economic and tourism benefits that are unique to the region. The site currently houses a county maintenance facility that over time has become surrounded by residential buildings and trails, making this industrial use incompatible with the neighborhood.

The project will remove physical and visual barriers to the adjacent Napa River wetlands while also rehabilitating/beautifying an existing building with architectural enhancements, ADA accessibility upgrades, energy efficient HVAC and lighting, and community-focused programmatic amenities. The site is located along the San Francisco Bay Trail and is an ideal location for recreation and education. Because it is situated at sea level, the project will include resilience measures to protect against flooding, in addition to documenting weather events such as tidal flows and high-water events. The area adjacent to the site is an important stop along the Pacific Flyway and is recognized for its abundance of flora and fauna, including several threatened or endangered species. The project removes existing debris, equipment, pavement, outbuildings, and appurtenances thereby conserving and protecting the adjacent habitat for these species.

The requested taxpayer funds will leverage pre-existing funding pledges and in-kind contributions, and once complete, the Ecology Center will be managed by a private, non-profit without having to rely upon future taxpayer funding for operations.

The project has a Federal nexus because the funding provided is consistent with 42.U.S.C. 5305(a)(2) and 5305(a)(4). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Tierra de Rosas Pubic Plaza Project. The entity to receive funding for this project is the Sonoma County Community Development Commission, located at 1440 Guerneville Road, Santa Rosa, CA 95403.

The Tierra de Rosas Public Plaza project, which is the final component of the Tierra de Rosas Public Infrastructure Improvements Project, will prepare for construction of a mixed-use development on a currently blighted and largely vacant shopping center property situated in the heart of Santa Rosa's Roseland neighborhood. The plaza will provide a public venue for community events, space for small businesses to operate, and recreation opportunities for kids and families. The Plaza at Tierra de Rosas will provide a long-awaited, vibrant hub for the predominantly low-income, Hispanic, and historically underserved Roseland community. Community Project Funding will contribute to the completion of the plaza by purchasing playground furnishings and equipment for installation. This project has been planned in coordination with community groups who represent and provide a voice for the Latino community in Roseland and Southwest Santa Rosa, a historically underserved community where the Latino population is 68 percent of the resident base. This project complements 75 units of affordable rental housing (24 extremely low-income units and 50 very low-income units), 100 units of market-rate rental housing, a civic building for community uses, a commercial parcel envisioned as a "mercado" food hall, and a one-acre public plaza that will serve as a community gathering place.

The project has a Federal nexus because the funding provided is for the purpose authorized by 42 USC 5305(a)(1). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for a mental health crisis center in Yolo County, California.

Yolo County Health and Human Services in partnership with the Cities of Davis, West Sacramento and Woodland is in the process of launching an exciting and innovative countywide crisis and sobering system of care to address the growing mental health, substance abuse and homeless crisis impacting California. The continuum consists of 4 key components. A team of Mental Health Crisis Responders, these responders are dispatched throughout the community 24/7 to respond to mental health and sobering crisis. There is also a team of Crisis Responders, embedded in local law enforcement departments to provide "co-response" services when law enforcement is called for mental health crisis. The second component is an innovative 24/7 dispatch and call center that interfaces with 988, the Suicide Hotline, EMS Dispatch, the public and the co-responder team to dispatch Crisis Responders throughout the community. The third component is a 24/7 receiving center for both mental health and sobering crisis. This center will have 8 crisis chairs where the public can receive mental health treatment, sobering services and connections to ongoing behavioral health supports post crisis. Those experiencing crisis can access these chairs and utilize the center for up to 23 hours. The fourth component is contracted 30-day crisis beds. If those in crisis need more time to stabilize, they can be transported from the receiving center and stay accessing inpatient services for 1-30 days. The requested $2 million would cover start-up capital costs including construction and remodeling, purchase of a crisis response vehicle, and engineering and facility fixture costs.

The project has a Federal nexus because the funding provided is for the purpose authorized by 42 USC 5305(a)(1). I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Thompson

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Town of Yountville's energy resiliency project.

The entity to receive funding for this project is the Town of Yountville, located at 6550 Yount Street, Yountville, CA 94599. The funding would be used for the implementation of a microgrid. The project is an appropriate use of taxpayer funds as it would bring several economic benefits to the community, including, but not limited to, energy cost savings, enhanced power reliability, green branding and marketing, tourism appeal, business attraction, and community resilience.

The project has a Federal nexus because the funding provided is consistent with purposes authorized in U.S.C. 5305(a)(1), 5305(a)(2), 5305(a)(4), and/or 5305(5).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mike Thompson
Member of Congress
