

General Community Funded Project Guidance from the Appropriations Committee

Ban on For-Profit recipients. The Committee is imposing a ban on directing Community Project Funding to for-profit entities.

Matching requirements. Several Federal programs eligible for Community Project Funding requests require a State or local match for projects either by statute or according to longstanding policy. The Committee will not waive these matching requirements for Community Project Funding requests. *Note: This does not mean that matching funds must be in-hand prior to requesting a project, but that local officials must have a plan to meet such requirements in order for such a project to be viable.*

One-year funding. Each project request must be for fiscal year 2022 funds only and cannot include a request for multiyear funding.

State or local governmental entities as grantees. Members are encouraged to consider public entities as primary grantees to oversee the completion of the project. For infrastructure projects, many States have established lists or intended use plans with projects that have already been vetted by governmental officials (e.g. drinking water, wastewater and highways).

Non-profits as grantees. If a Member requests that funding be directed to a non-profit organization, the Member will need to provide evidence that the recipient is a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986. Further, many water projects often partner with non-profit entities to complete projects. Therefore, projects may also be directed to non-profits with an inherently governmental function.

Community Support. Community engagement and support is crucial in determining which projects will be ultimately selected for Federal funding. Only projects with demonstrated community support will be considered by the Appropriations Committee.

The Appropriations Committee encourages project sponsors to include evidence of support for your proposal including:

- Letters of support from elected community leaders (e.g. mayors or other officials);
- Press articles highlighting the need for the requested Community Project Funding;
- Support from newspaper editorial boards;
- Projects listed on State intended use plans, community development plans, or other publicly available planning documents; or
- Resolutions passed by city councils or boards.

Transparency. Certain information about project requests submitted by my office to the Appropriations Committees will be made public. This includes: the proposed recipient; the address of the recipient; the amount of the request; and an explanation of the request, including purpose, and a justification for why it is an appropriate use of taxpayer funds.
